

Online Answer Form Process

1. A link to an online entry system will be emailed to all competitors approximately 1 hour before the race. The URL will also be available at registration.
2. Complete the event as normal filling in responses to the CP questions on the hard copy answer sheet (these are provided in duplicate to every team).
3. At the finish line, immediately check in with the official to be given your finish time. There is a 10 point penalty for every minute you are late!
4. After collecting a finish time, check in with the other official for the "code" for those teams that have collected either CP80 and/or CP120.
5. Open the Answer Form link, select your team name/number, enter your finish time (setting it for PM) and then record answers for all the CPs you visited. (Note that the online form can be completed during the event if you wish, but you will still need to record hard copy answers). Only hit the SUBMIT button once you have entered every answer.
6. Results will automatically be published [HERE](#).
7. Submit your fully completed hard copy answer sheet to officials once you have completed the online form.
