The 2023 Rogue Raid Race Document

This document contains all the information you will need to prepare for the Rogue Raid. It will be updated periodically in the lead up to the race. Teams are set for another traditional Rogue Raid challenge with plenty of off-road travel and navigational tests on a journey around the Somerset regional area, revisiting some familiar locations from past events and exploring all new sections of course never used in adventure race before. It will be a true test of a team's physical, navigational and strategic strength.

Concept

The Rogue Raid is a race where teams compete to collect as many checkpoints as possible over a 24 hour time period. The Rogue involves multiple stages of the traditional adventure racing disciplines of trekking, mountain biking and kayaking where teams must navigate the course using a map and compass on a route of their own choice. Each stage is effectively its own small rogaine where competitors may attempt to collect as many or as few checkpoints as they wish, making this event achievable by all levels of athlete. Strategy, precise navigation and perseverance will play just as a significant role as raw speed and fitness. 2023 will represent the 14th running of the Rogue Raid which has grown to be Australia's largest 24 hour adventure race.

Race Length

The 2023 Rogue Raid will take a slight departure from previous editions and only offer a 24 hour racing category: there will not be a 6 hour racing option. This is because the course logistics doesn't offer a fantastic standalone 6 hour event and it will allow us to focus on delivering the best 24 hour race possible.

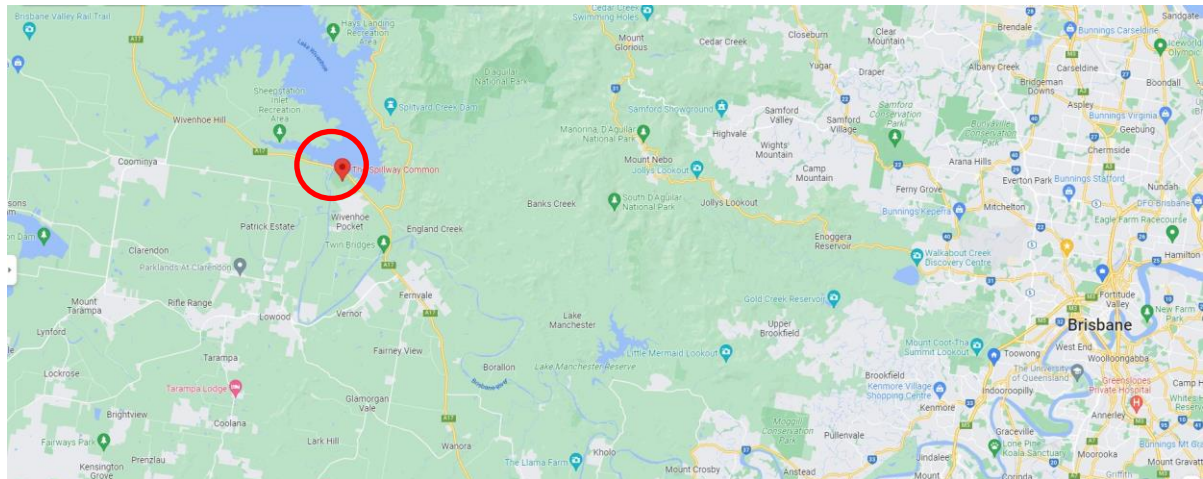

However, within the 24 hour event, there is an opportunity for teams to split the race in two, returning to HQ for anywhere up to 8-10 hours overnight and treat it as a roving course. That is, teams could reasonably race all Saturday afternoon, return to HQ skipping the tough overnight stages and head back out again on Sunday morning and still see the best bits the course has to offer.

For teams looking for shorter race options, we'd encourage you to check out the [Wildfire Raid](#), [Escape Raid](#) and [Mojo Raid](#).

Approximate distances are provided further down in this document. See past Rogue Raid course results from previous editions on our [results page](#) for an estimate of how the Rogue Raid course is structured.

Race HQ Location

Race HQ will be situated at the [Spillway Common Day Use Area](#) at Lake Wivenhoe. There is no accommodation or camping on site – teams are encouraged to seek their own local accommodation options prior to the race.

Please note that parking space is limited and teams are encouraged to car pool where possible. **Please leave the space designated below free for volunteers and the kayak trailers and park along the road verges.**

Disciplines

- Trekking – both on and off-trail.
- Mountain Biking – on sealed and unsealed roads, single-track, and fire trails.
- Kayaking – on flat-water lake/s
- Swimming – Body board or similar + PFD to be used
- Navigation – moderate to challenging.

Format

Teams will be required to attempt multiple legs of alternating race disciplines. Each leg must be attempted in order, and once a leg is completed teams may not return to it to collect missed checkpoints later unless otherwise specified in the course notes. However, within each leg, teams may collect as many checkpoints in any order that they wish. All checkpoints are optional. Note that teams may only collect checkpoints that are from the current leg that they are on. Note also that some stages of the race may have “opening” or “closing” times.

This format of event allows for a very social atmosphere of racing with teams constantly being brought together. Each stage of the Rogue Raid is separated by a transition area. Any full team that makes it back to Race HQ under their own power will be considered ranked with an official result. Although we have hosted a number of Raid events at Wivenhoe Dam in the past, the 2023 course will explore some new areas never visited in an adventure race before. Teams will need their navigational wits about them.

Weather, Sun and Moon Schedule

The long range forecast for race weekend is for temperatures between 12°C-26°C, overcast, with a slight chance of drizzle (less than 1mm) – basically perfect adventure racing weather! Being too cold is more likely than being too hot, but teams should prepare for the possibility of either extremes. Sunset time is 5:20pm (last light at 5:44pm) and sunrise time at 6:14am (first light at 5:50am) on race day. There will be a half moon on the night of racing.

Distances

There are a total of 8 stages with 54 checkpoints. The total course is 258km in length. Approximate distances for each discipline are:

- Trekking: 1 – 50km
- Kayaking: 17 – 50km
- Biking: 103 – 157km
- Swimming: – up to 1.5km

Notes: TA-B is the bike drop location. Teams should leave food and water for stage 3 during the bike drop (there is no water provided at this TA), along with equipment/food for stages 6, 7 and 8 to add to their paddle bags which will then be moved by organisers to TA-D.

STAGE 4 TREK

Start: TA-C

Bike Drop

Teams will need to perform a bike drop prior to arriving at race HQ on Saturday morning. The bike drop will be open and manned by an event official from 9:15am.

The Bike Drop location is Savages Crossing Recreation Area on [Banks Creek Rd, Fernvale](#). It is approximately a 15 minute drive from there on to race HQ.

Note that the bike drop location is TA-B in the logistics schedule. As you can see from the schedule, teams will only pass through this location once during the race. **There are number of important items you need to leave at the bike drop location before the race:**

- Bikes and related equipment (helmet, bike shoes, lights, mapboards, etc).
- Enough **water** for the stage 3 bike leg (anywhere from 2 to 6 hours of riding). Water will not be provided by organisers at this transition area.
- Additional equipment that you may require for stages 6, 7 and 8 at TA-D later in the race: for example a dry set of clothes, bike repair equipment, food, etc. Teams will only be able to access their paddle bags at TA-D. The paddle bags will be transported by teams themselves from TA-A to TA-B on their kayaks. Therefore, to minimize the weight you have to carry on the kayaks and not risk getting key dry items wet, if you leave these items at the bike drop at TA-B, you can then pack that equipment into your paddle bags when you pass through the transition area and it will be subsequently moved for you on to TA-D.

The only item to be left behind by teams at the Bike Drop/TA-B after they leave during the race is their full packed paddle bags.

Shoes

Competitors that ride with clip-in pedals will not need to carry their running shoes while riding during the race if they bring two pairs of trekking shoes with them to race HQ. A “wet” pair that can be used on Stages 1, 2, 6 and 7 and a “dry” pair that can be put in the gear box for Stage 4 and accessed at TA-C.

Gear Box and Paddle Bags

Teams are required to bring one (1) plastic gear box. Teams of 4 may be permitted a box up to 120L in size (for example a black “XPD” style box) while teams of 2 are permitted a box up to 60L in size. These must be labelled with your team name and have a secure lid. This box will be moved to TA-C for you to access equipment such as food, batteries, shoes and dry clothes for Stages 4 and 5 of the race. Note that only tank water is available at TA-C, so teams may wish to consider some form of water purification if this is of concern.

Teams are also required to bring a paddle bag for the transport of their paddles, PFDs, kayak seats and other paddling equipment. For teams with full length paddles, they can use a second bag for just transporting the paddles alone. All paddle bags need to be labelled with your team name. Teams will also be permitted to pack additional equipment in these bags as required (for example, dry clothes, shoes and food). Paddle bags will be available at the start and end of all kayak legs, that is, TA-A, TA-B and TA-D.

Teams are not required to bring a bike box, and will not need to disassemble their bikes during the race. Race organisers will not be transporting your bikes during the race at any stage.

Water

Please pay careful attention to the availability of water at the different transition areas noted in the logistics schedule:

- **TA-A: No water available. Teams should carry enough on stage 1 for stage 2 as well.**
- **TA-B: No water available. Teams should leave enough with their bikes for stage 3.**
- **TA-C: Tank water only available. Teams may wish to purify.**
- **TA-D: Water (and toilets) available.**

Kayaks and Paddle Equipment

The 2023 Rogue Raid will use a mixed fleet of kayaks. These include the double CTR kayaks available from Navis Outdoors, along with Mission Surge double sit-on-top kayaks provided by Wild n Co. There will not be a BYO kayak category in 2023.

- **Mixed teams of 4 (A1 category) will paddle 2 x red Mission Surge kayaks.**
- **Pair teams (mixed, mens and womens) will paddle 1 x green CTR kayak.**

Teams are required to bring their own paddles and PFDs to the race. For those that need either of these provided, paddles and PFDs can be hired from Adam from Navis Outdoors for \$10 each via the web form [here](#). These will be available in the transition area at the start of all the kayak stages for you, with the exception of PFDs which will be available at the start line. Both kayak models can be fitted with a back rest for those that are looking for a bit more comfort, and having some kind of foam seating is also strongly encouraged.

Note that PFDs should NOT be packed into your paddle bags for transport: you will need them with you from on the startline for Stage 1 of the race. Race bibs are to be worn over PFDs.

Maps

All teams will be provided with duplicate copies of a set of waterproof, colour, custom built event maps. The number, size and scale of the maps provided in 2023 will be as follows:

- 5 x A3 at 1 to 30,000 (one with a 1 to 15,000 inset) – mix of 5m or 10m contour interval
- 1 x A4 at 1 to 30,000 – 10m contour interval
- 1 x A3 at 1 to 25,000 – 5m contour interval
- 1 x A3 at 1 to 20,000 – 10m contour interval

Body Board Swim

The mystery discipline in 2023 will be a body boarding swim. Teams are expected to complete up to a 1.5km swim with some form of flotation device: hard or soft body board, airbed, inflated inner tube, pool noodle, kick board, surfboard, etc. Packrafts or boats will not be accepted, nor any form of motorised transport. If you are unsure if your flotation device will meet the standard, send it to us in advance to review, however the expectation is that you are in the water swimming, not on top of it paddling.

The body boarding section of the course cannot be skipped and you will be in the water for around 1.5km. Flippers and/or hand paddles may be a consideration, but keep in mind you will need to trek for 1 to 4.5km with your flotation device on the same stage. The stage will be completed in daylight, but please consider options to stay warm during and after the swim. PFDs will be mandatory and teams will be monitored on the water by safety boat.

Live Website

We will be running a live website for spectators at home to follow the action. This will include a live leaderboard updating team's scores during the race, social media commentary on news from the course and a photo gallery. Teams will also be assigned a GPS tracker so spectators can follow their progress via the Living It Live platform. Competitors are not allowed to access this live site during the race. Online coverage will also be provided by [AR Live Coverage](#).

Scoring

The Rogue Raid will return to a traditional orienteering punch / punch card scoring system for 2023. Teams will be issued punch cards throughout the course for each stage or section. This has the advantage in that scores can be collected progressively throughout the race and published live. Lost punch cards will result in a penalty. There is an expectation that teams will visit all controls together as a full team – splitting up to collect controls is cheating and will be heavily penalised.

Teams will also need to submit their mandatory phone for sealing in a tamper-proof bag when submitting indemnity forms and gear boxes at race HQ. GPS trackers will also be issued at this time.

The Rogue Raid will adopt a traditional rogaine scoring format where each checkpoint will be assigned a certain score value: each CP will be numbered numerically in order, with a score value in brackets afterwards. For example, CP2 from the first stage of the race may have a value of 50 points, while CP42 from a later stage might only have a value of 20 points. In the event of a tied score, the team that finishes earlier will be ranked higher. Teams arriving after the finish time will receive a penalty of 10 points per minute they are late or part thereof, up to 30 minutes. At this point the course will be closed down and teams that have not finished will lose all points. Time credits may apply for teams held back by the opening of a stage, but only if they have swept the course up until that point.

Adventure 1

The Rogue Raid is the first race of the national [Adventure1](#) series and teams will be competing for those all important national ranking points. The 2023 Rogue is set to be the most competitive race on the Australian calendar this year
