Competitors are advised to read the following information carefully. It contains logistical information for each leg, and checkpoint collection information. Checkpoints in each leg may be collected in any order. Team members unless otherwise specified must remain with 100m of each other at all times. Both team tags need to be punched at CP's within 30sec or your score will not register. Competitors must attempt each leg and obtain a minimum of one CP on each leg.

No GPS or measuring device of any kind is permitted. Fitbits or other personal fitness trackers should be covered with tape or removed for this event. Please do not leave any rubbish on the course, and be respectful of the environment you are travelling in. If you are travelling on private land, please show respect for the landowners who have graciously donated land use for this event.

During kayak legs PFD must be worn at all times. When travelling on your mountain bike at dusk or at night, bike lights must be fitted and illuminated, helmets worn at all times and road rules obeyed. Some items have been specified as "mandatory" which means you must carry them at all times. These items will be randomly checked and penalties applied for missing items. These items are for your safety.

In the event of an emergency, stabilise the patient and if required call 000 or 112. Phone signal is variable and may require access to a high point. For non-emergency situations please contact the race directors:

After a stint on some fast access roads you'll be heading up the valley. Lucky for you, you have already had a relaxing paddle and should have plenty in reserve to explore this part of the course! We've added a couple more climbs into this part of the course because... well, we have plenty at our disposal. The views are worth it though! You'll also be visiting another private land area on this leg and we've had to modify the course at the eleventh hour – please see the amended map at HQ to mark up the new CP locations. On part 1 of this leg you can decide to collect all, some or no CP's. You can ride straight to the TA and attack the CP's on part 2 of this leg.

TRANSITION AREA – TA “The saddle”

You’ll be happy to be off your bike now so check in with our TA official and put your trekking shoes on!

You’ll notice some high value CP’s on your map, we recommend getting to them as they are stunning locations.

On the trail, there will be other people and vehicles using the park so make sure you give way to all other traffic!

Although you only need to get one CP as a minimum, the winning teams will need to do well on this leg.
